

PRO TIPS
Stay up-to-date on ZDHC MRSL Conformance

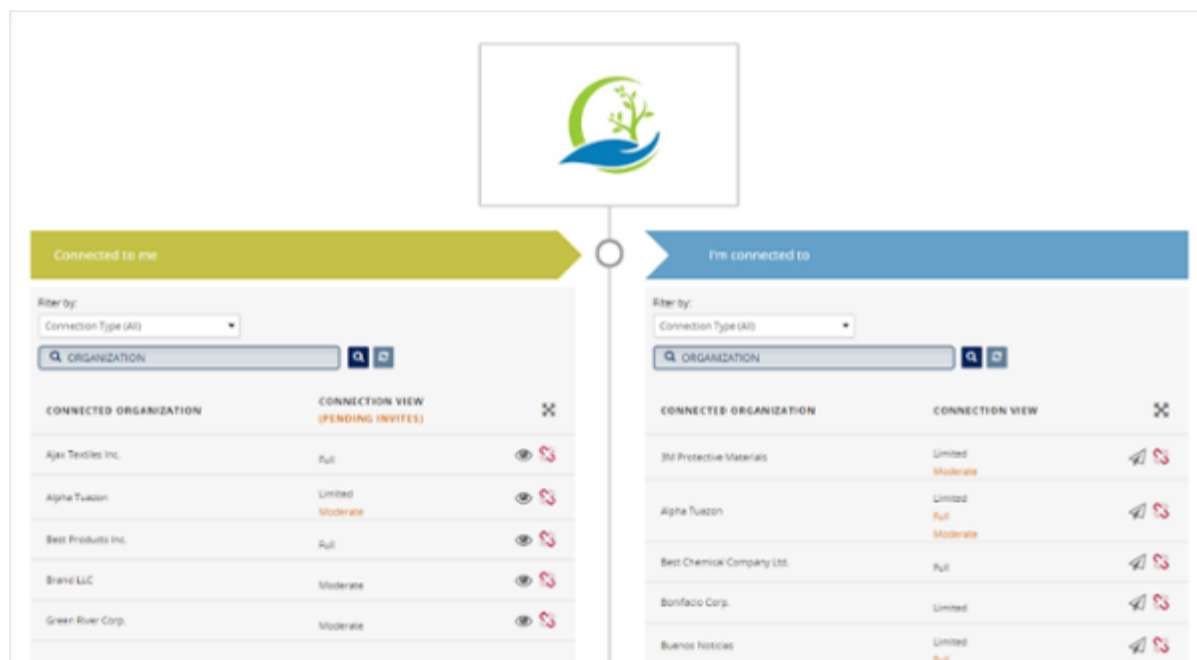

CleanChain provides you a variety of ways to stay up-to-date against the [ZDHC MRSL](#).
 To see where your facility stands against the ZDHC MRSL:

1. Navigate to **Dashboard** and select the conformance standard **"ZDHC MRSL v1.1"** to see how many of your formulations meet the different levels from the ZDHC Gateway.
2. On your Dashboard, you can also filter by **Product Tag** to see how your formulations conform by ZDHC Use Category.

For more information on the ZDHC MRSL, check out the [ZDHC MRSL Conformance Guidance](#).

PRODUCT UPDATES
Connect and share

Connections enable you to easily view your supply chain at a glance, share chemical information, and improve communication with your customers and partners.

We heard your feedback, and **CleanChain 2.3.1** improves upon connection management. You can easily view all your connections, suppliers, and customers in just a couple of clicks.

To View all Connections:

1. Using the left-navigation menu, click **"Connections"**.
2. Click the **"Access Rights"** tab at the top of the screen.
3. From here, you'll be able to view and manage all of your connections.

To View your Customers:

1. Using the left-navigation menu, click **"Connections"**.
2. Click the **"Connections"** tab at the top of the screen.
3. In the **"Connection Type"** tab, choose **"Your Organization Supplies"**.

FEATURE OF THE MONTH
Upload, compare, and analyze

Eliminate digging through guidance documents and the use of offline tools with CleanChain's **screening tool**. Screening enables users to automatically compare product analyses to a chemical standard or substance control list. The screen tool creates data visualizations and tables so you can easily determine the result of the analysis and act.

To use Screening:

1. Upload a **Product Analysis** in the Analysis Section.
2. Click **Screening**.
3. Select the product analysis you would like to use.
4. Select the chemical standard or substance control list to compare the product analysis against.
5. Click **Compare**.

COMMUNITY NEWS
CleanChain's international community

ADEC Innovations team members are in Amsterdam this month, working alongside the ZDHC Foundation at the Input and Output Focus Area Meetings. ZDHC, ADEC Innovations, and members of the global apparel, footwear, and leather value chains came together to further our shared goal of eliminating the discharge of hazardous chemicals into our environment.

ADEC Innovations presented to a group of 45 ZDHC contributors on new features released in the ZDHC Chemical Gateway and Wastewater Module during 2018, as well as updates from the last Focus Area meeting in May. The meetings also set agendas and targets for the coming year. [Learn more](#) about implementing CleanChain and ZDHC Gateway within your manufacturing processes by clicking the button below.
