

## INTRODUCING THE CLEANCHAIN COMPLIANCE MODULE

As a socially responsible organization, maintaining an ethical, accountable supply chain is an important part of your global strategy. But managing compliance risk for hundreds, or even thousands, of facilities spread across multiple countries is time-consuming and resource-intensive. Staying on top of constantly changing regulations and monitoring steps to comply

with them can seem like a data and logistics nightmare. The **CleanChain™ Compliance Module** is built to keep you operating within—and ahead of—environmental, health, and occupational safety compliance obligations.

### THE COMPLIANCE MODULE ENABLES YOU TO:

- ✓ Monitor and maintain compliance for **multiple facilities** across the globe
- ✓ Stay **up to date** with laws and regulations at global, regional, and local levels
- ✓ Get ahead of the crowd—**track** what you need to meet voluntary commitments like ISO Standards, sustainability certifications, and company-specific pledges
- ✓ **Demonstrate** a global commitment to lawful operations, environmental compliance, and worker health and safety
- ✓ Get unprecedented insight into your federal and state compliance with evergreen data from **Libryo\***
- ✓ Save time and effort—let CleanChain's constant regulatory **updates** do the work for you

## KEY FEATURES OF THE COMPLIANCE MODULE

### APPLICABILITY ANALYSIS

Do you know what compliance regulations apply to your facilities? Let CleanChain determine your compliance obligations quickly and easily, on a site-by-site basis.

### COMPLIANCE TASKS

What are your next steps? Take action with CleanChain's Compliance tasks, and work with individual facilities to customize an action plan for their specific compliance obligations.

### DASHBOARD

Every individual facility's compliance data, all in one place. You will instantly see which facilities are compliant, what compliance tasks need to be completed, and when.

### COMPLETE COMPLIANCE LIST

Keep track of all compliance obligations in one place with CleanChain's compliance list feature.

### LEGAL SUMMARIES

Dig into the legal requirements for each facility by reviewing the plain English legal summary text of the law—no need for legal counsel review or interpretation.

### FLEXIBILITY

Utilize CleanChain's automated system for your compliance management, or use your manual entry capabilities.

**The world of compliance is continually evolving. The Compliance Module can help you stay ahead of it.**
